

Welcome to the December issue of Treescape® News.

Consistent with our cornerstone belief of Manaaki (or Support), we have a number of health based initiatives underway at Treescape®. In this issue, we have drawn attention to hearing loss and the importance of hearing protection.

We are constantly seeking to improve the quality our services to provide a better customer experience. Further into our newsletter, we showcase two recent projects that demonstrate how we use innovation and experience to help clients - a Brisbane council job that involved a very early start and the temporary closure of an inner-city street, and a New Zealand land-clearing project where we not only used the very latest mechanical technology to perform the work, but filmed it safely with drone technology.

The newsletter is then rounded out with the launch of our new call centre and a community tree planting project in Brisbane.

Lastly, I'd like to take this opportunity to thank you for your support of Treescape® this year. We really appreciate it, and would like to wish you and your families a happy, relaxing and safe Christmas and New Year.

James Fletcher,
Treescape® CEO

Health & Safety

Hearing Protection

Reduce noise related damage

Did you know it takes less than 5 minutes to damage your hearing if you happen to be next to a running chainsaw without proper protection?

Today we are focusing on noise, the risks of hearing loss and preventing the hearing damage.

Innovation

Drone technology for land clearing

Want a closer look at how the Treescape® team removes mature pine trees from a forest?

We used the latest drone technology to give you never-seen-before views of our excavator and the Waratah Head operating within the 90 m exclusion zone.

Case Study

Normandy Tree Removal (Brisbane, Australia)

When Brisbane City Council rang us to help them remove a large deceased tree, we knew we could help.

The hook? It was in the inner city, so we needed a 3am start and a specific health and safety plan to get the job done safely.

Green Asset Management

Testimonials

“Many thanks for providing an outstanding customer service.

Whether it is huge tree projects on our volcanic cones, big pine removals or politically motivated planting projects.”

David Stejskal
Auckland City Council

Company News

Treescape® Call Centre

0800 TREWORK

We have taken steps to improve Treescape®'s customer service and call centre performance.

To assist you efficiently, you can reach us Monday-Friday between 8am-4.30pm, and, for urgent queries and emergencies we're available 24/7.

Community focus

Tree Planting in Brisbane

Community Event

We love giving back! More than 50 volunteers, more than 200 trees planted.

It was great to be in Graceville with Brisbane City Council in late November.

Well done, team!
