

Hello everyone,

on behalf of the team at Treescape®, I hope you had a great start to the new year. We look forward to working with you again in 2021.

We would like to share some recent news with you below, as we have been involved in some interesting projects over the last few months.

Some of our recent jobs included a helicopter to remove trees, and an artistic collaboration to turn a skip bin into an urban oasis.

Moreover, we have some handy tips and guides available to be considered when planting trees.

Finally, we're proud to announce that we have been acknowledged by The New Zealand Workplace Health and Safety Awards.

Kind regards

Ed Chignell
Executive Chairman

Health & Safety Award

Vitae best initiative to promote better worker health

We are aware that we operate in a “noisy” industry and that there’s a stigma around hearing loss. To make Treescape® a better workplace, we have partnered with the National Foundation for the Deaf and became a Hearing Accredited Workplace. In December, our efforts have been acknowledged by The New Zealand Workplace Health and Safety Awards.

Our Work

Tree removal by helicopter

Trees fall, and sometimes they fall onto houses. To minimise the safety risk to the residents and to avoid any further damage, we had to remove 30 very large pine trees. The challenge? No access for vehicles and machinery such as crane and trucks. So, a helicopter was needed to complete the job.

Art & Plants

An urban oasis ... in a skip bin! Our creative approach and collaboration with the Inner West local council transformed a refurbished skip bin into a piece of art with a tiny urban garden inside.
